

Moffett Beverage

Delivering **Confidence**

Moffett Beverage

Moffett is at the forefront of the beverage industry, working with producers, distributors, brewers and bottlers to assist in the safe and efficient delivery of some of the world's most popular beverages.

Narrow passageways, difficult access areas and confined spaces are environments frequently encountered when delivering to small or medium sized retail outlets. Your MOFFETT has been designed specifically to work in these situations.

Beverage

For more than 40 years, Moffett has been manufacturing Truck-mounted Forklifts, a load handling solution that has helped transform the way materials are distributed across the globe.

Your MOFFETT Truck-mounted Forklift is operated by only one person. The need for manual handling is eliminated while you save both time and money through greater utilisation of your fleet. Deliveries can be made day or night, anywhere and without equipment or personnel for off-loading assistance.

On site, your Truck-mounted Forklift is ready to get to work in less than a minute. Your MOFFETT Truck-mounted Forklift can be carried on the back of almost any truck or trailer with no loss of load space.

Models for the beverage industry are available with retractable wheelarms and smaller front wheels. When loading or off-loading, the wheelarms can be positioned under the truck and the driver can access any pallet quickly and efficiently from one side. The ability to off-load from one side of the truck allows you to speed up your deliveries.

All beverage machines are fitted with telescopic forks and side shift to ensure precise and safe moving and positioning of the load and to avoid transport damage.

The MOFFETT is designed specifically for the beverage industry and can handle a wide variety of beverage products. It's lightweight body and low height made it ideal for urban distribution.

- No loss of load space
- No waiting for a customer's or supplier's forklift
- Flexibility and control of delivery schedules
- Higher productivity
- Creates time to make more deliveries
- Delivery where needed, precise load positioning
- Reduce product damage
- Safe and easy to use
- A proven competitive advantage
- Up to 1500kg lift capacity
